Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Specification

1. The abstract of the disclosure is objected to because it contains legal phraseology such as “comprising”. Correction is required. See MPEP § 608.01(b).

Drawings

2. The informal drawings are not of sufficient quality to permit examination. Accordingly, replacement drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to this Office action. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the electrical voltage applied between the raster unit and the developer unit and the rotation of the raster roller must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing

sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

4. Claims 118, 121-130, 132, 137 and 142-147 are objected to because of the following informalities:

- Claim 118, line 2, replace “raster” with --developer--.
- Claim 121 recites the limitation “the developer roller” in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.
- Claim 124 recites the limitation “the developer roller” in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.
- Claim 128 recites the limitation “the developer roller” in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

- Claim 129 recites the limitation “the developer roller” in line 4. There is insufficient antecedent basis for this limitation in the claim.
- Claim 129, line 4, “areal” is unclear.
- Claim 132, line 2, replace “the” (first occurrence) with --an--.
- Claim 137 recites the limitation “the inlet” in line 1. There is insufficient antecedent basis for this limitation in the claim.
- Claim 142, line 3, replace “the” with --an--.
- Claim 122, 123, 125-130 and 143-147 are also objected for the same reason because of their dependency on claims 118, 121, 129 and 142, respectively.

Appropriate correction is required.

Allowable Subject Matter

5. Claims 112-117, 119, 120, 131, 133-136, 138-141, 148 and 149 are allowed.
6. Claim 142 would be allowable if rewritten or amended to overcome the objection set forth in this Office action.
7. Claims 118, 121-130, 132, 137 and 143-147 would be allowable if rewritten to overcome the objection(s) set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Prior Art

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
 - Munakata et al. [7,167,666] disclose liquid development device.
 - Kamijo et al. [7,149,459] disclose an application roller and image forming apparatus.

- Shin et al. [6,778,799] disclose an image forming apparatus.
